

ENERGY AUDITOR TRAINING

Comes to Greensburg!

FEBRUARY 8 – 12, 2010

The State Energy Office has approved only 3 training facilities in the state to qualify Energy Auditors to perform the “before” and “after” audits required for homeowners to participate in the new Efficiency Kansas weatherization programs.

Greensburg GreenTown, (in affiliation with the Metropolitan Energy Center and the Energy and Environmental Training Center of Kansas City), **is bringing this qualifying training to Greensburg for ONE WEEK ONLY**

5 Days of classroom and field training in basic Building Science, including:

- Insulation, Windows/Doors, Air and Moisture Flow in Homes
 - Instruction in the use of a blower door
- Instruction in the use of combustion appliance zone safety testing equipment
- REM Design computer audit modeling software training (designed to accurately assess the home’s current energy efficiency and project the effectiveness of weatherization and equipment upgrades)

HVAC/Remodeling/Insulating Contractors, Home Inspectors and others interested in this fascinating field: DON’T MISS THIS OPPORTUNITY

**** AUDITORS ARE NEEDED NOW IN CENTRAL AND WESTERN KANSAS ****

REGISTRATION AND FEES: \$1,595.00

At least two weeks advance registration is required

- 5-day classroom/field training and written exam
- 2 review audits and field exam subsequent to class
- Certification upon successful conclusion of class work, exams and reviews

To Register: Flint Hills Technical College 620-343-4600 or 620-341-1335
